Valid New Zealand work rights | Available for part-time work up to 25 hours per week

PROFESSIONAL SUMMARY

Service Desk Analyst with 10+ years of experience across enterprise IT support, logistics, customer service and operations. Progressed from IT logistics into frontline technical support after completing a Bachelor of Engineering (Software Engineering) while working. Hands-on with Tier 1/2 support, ServiceNow, Microsoft 365, Active Directory, Entra ID, Intune, incident management and technical troubleshooting in a high-compliance environment.

CAREER HIGHLIGHTS

- Promoted into Service Desk Analyst responsibilities at the U.S. Embassy after deliberately building technical capability alongside logistics duties and completing a Software Engineering degree.
- Delivered frontline Tier 1/2 support and first-contact troubleshooting for desktops, printers, scanners, mobile devices, network authentication and end-user computing, reducing operational disruption.
- Supported 400+ official mobile devices through provisioning, replacements, Android onboarding, SIM support and Microsoft Intune troubleshooting across a large enterprise environment.
- Managed and reconciled 2,000+ IT assets with 99% accuracy and improved Configuration Management Database accuracy through asset verification, scanning, classification and lifecycle controls.

CORE COMPETENCIES

Service Desk & IT Support | Incident Management & Ticket Triage | Tier 1/2 Troubleshooting | Customer-Centric Support | First-Contact Resolution | Escalation & Service Request Fulfilment | User & Device Administration | Microsoft 365 Support | Wired/Wi-Fi & Network Troubleshooting | IT Asset & CMDB Management | Technical Documentation | Cross-Functional Collaboration | Continuous Improvement

ServiceNow | Microsoft 365 | Active Directory | Microsoft Entra ID (Azure AD) | Microsoft Intune | Exchange Online | Windows | Microsoft Office | Microsoft Excel | Power BI | Power Apps | Power Automate | SAP ERP | IP Telephony / PBX | Video Conferencing & AV Systems | Inventory / Asset Management Systems

PROFESSIONAL EXPERIENCE

U.S. Embassy, Sri Lanka | Logistics & Inventory Coordinator → Service Desk Analyst | February 2021 – July 2026

- Progressed into enterprise IT support after completing a Bachelor of Engineering (Software Engineering) while working, partnering with Systems Administration, Infrastructure, Telecommunications and Customer Engagement teams to build practical technical capability.
- Provided Tier 1 and Tier 2 support by phone, email, remote access and in person; diagnosed and resolved hardware, software, Microsoft 365, desktop, printer, scanner, mobile-device and network-authentication incidents with a strong customer-service focus.

- Logged, prioritised, updated, assigned and closed incidents and service requests in ServiceNow; applied structured troubleshooting, clear customer communication and appropriate escalation to support timely resolution and minimise repeat incidents.
- Administered Active Directory, Microsoft Entra ID, Microsoft Intune and Exchange Online for user accounts, devices and access, supported lifecycle management for 400+ official mobile devices, including provisioning, replacements, Android onboarding, SIM and Intune issues.
- Supported wired and wireless connectivity, IP phones, PBX telephony, AV and video-conferencing systems, workstation deployments, infrastructure upgrades and technology rollouts; contributed to major embassy relocation and multi-location projects while maintaining operational continuity.
- Improved service and operational efficiency by streamlining onboarding/departure checklists, strengthening CMDB accuracy through large-scale asset reconciliation, and supporting IT asset lifecycle controls across Colombo and Maldives.

Alfred Talke Logistics, Qatar | Inventory Team Leader | March 2017 – December 2019

- Led daily inventory operations in a 50,000 MT warehouse, coordinating competing priorities, resolving operational issues and maintaining safe, accurate and efficient service delivery.
- Used SAP ERP for inventory transactions, cycle counts and reconciliation; investigated discrepancies and implemented corrective actions, consistently maintaining 100% inventory accuracy.
- Coordinated 3,500–4,000 MT of daily inbound and outbound cargo, balancing operational priorities while maintaining reliable service and productivity.
- Supervised and trained five inventory personnel, strengthening communication, teamwork, coaching and performance against operational targets.

Stafford Motor Company (Honda), Sri Lanka | Sales Coordinator | May 2016 – March 2017

- Supported 200+ authorised dealers by coordinating inventory availability, customer orders, quotations, purchase orders and sales documentation while maintaining accurate records.
- Handled dealer and retail customer enquiries, order fulfilment and after-sales support, developing strong customer communication, service and problem-solving skills.
- Coordinated suppliers, shipment schedules and spare-parts delivery while preparing reports and supporting daily sales operations.
- Built a strong customer-first foundation by resolving enquiries accurately, coordinating stakeholders and maintaining service standards in a fast-paced commercial environment.

SELECTED TECHNICAL PROJECT EXPERIENCE

- **Embassy Relocation & Technology Rollout**
Supported telecommunications and workstation activities during a major relocation, helping maintain system availability and business continuity.
- **Network, Cabling & Telephony Support**
Installed and configured wall/desk phones, supported PBX troubleshooting, and worked with switches, patch panels and dedicated internet network infrastructure.
- **AV, Radio & Connectivity Support**
Supported audio-visual deployments and events, troubleshooted radio/internet connectivity, and assisted with office applications and mobile/open network services.

EDUCATION

- **Master of Business Informatics (Business Analytics)**
Yoobee College of Creative Innovation, Auckland | In Progress | Completion in July 2027
- **Bachelor of Engineering (Software Engineering)**
London Metropolitan University
